**WINEGARD®**

## **ROADTRIP® MINIMAX™ SATELLITE TV ANTENNAS**

What makes this antenna so great is it's MINI size and MAXimum signal reception. With the smallest footprint on the market, the Minimax features an enhanced antenna design and a high-gloss rounded dome to deliver maximum performance in bad weather (rain, dew, snow). Easy one-button on/off automatic operation with DVB technology to provide fast satellite acquisition. Single satellite viewing antenna automatically switches between satellites. Supports two receivers so you can watch different programs from the same satellite on two TVs at the same time. Receives all standard and HD programming from DISH Network® and Bell TV; standard DIRECTV® only. Not compatible with DIRECTV KA-band satellites. Receivers and program packages sold separately. Includes wall switch, power and coax cables. Only 15"H x 20"D. Weighs only 13.5 lbs. For stationary use only.

**22-1312** Black, 15" Reg. 918.00

**22-1314** White, 15" Reg. 918.00

# Broader Reception Range than Traditional RV Antennas!

**\$126<sup>89</sup>**  
BOTH

## DIGITAL HDTV OVER-THE-AIR ANTENNAS

Get the best digital TV signal available! Receives UHF signals where over 80% of new DTV channels are broadcast. Provides broader reception coverage than traditional RV antennas. Full 360° rotation means there won't be any dead spots due to rotational limit commonly found with other antennas. Aerodynamic mount offers superior wind resistance and requires less roof space because it's 70% smaller than traditional RV antennas. Built-in amplifier enhances weak signals in fringe areas for improved reception. Includes a flush wall mount power switch with cable/antenna inputs and 2 TV outputs. Works with varying roof thicknesses and easily replaces existing antenna.
